Subject: Microsoft settlement

The purpose of this e-mail is to lend my voice and help bring speedy closure to the subject settlement.

Too often we find in our country that the legal profession is directly involved in the decision making process in industry. This settlement is a prime example. Microsoft is a very successful company and should be allowed to compete for its share of the computer market.

Legal maneuvering by the legal profession on behalf of Microsoft has resulted in expensive delays. Lets act like reasonable and honorable people and help bring this settlement to closure during the first quarter of 2002.

Regards,

Roy Tweedie
